8/14/01	A01-07-031	Pacific Gas and Electric Company, for exemption under Section 853 for easements on PG&E land allowing Delta Energy Center, LLC to maintain an electric transition structure for the Delta Project and CPN Pipeline to maintain gas facilities for the Delta Project and the Los Medanos Energy Center Project, or in the alternative for approval of easements under Section 851.

Summary: LATE FILED. On August 3, 2001, Edward W. O'Neill, counsel of Delta Energy Center, LLC ("Delta Energy"), met with Linda Serizawa, advisor to Cmmr. Wood; on August 7, 2001 – with Ann Watson, advisor to Cmmr. Bilas; and on August 8, 2001 – with Cmmr. Wood. All three meetings took place in San Francisco. At the meeting with Ann Watson also present was Lynne McGhee, advisor to Cmmr. Bilas, and Cmmr. Bilas participated in the meeting by telephone. Alex B. Makler of Calpine Corporation participated in the meeting with Cmmr. Wood. The purposes of the meetings were to discuss Delta Energy's Emergency Motion for issuance of an Assigned Cmmr's Ruling ("ACR") granting interim authorization for use of PG&E land for an electric transition structure necessary to interconnect the Delta Energy Center to the grid. O'Neill stated that expedited Commission authorization is required for plant construction to remain on schedule for commercial operation to meet Summer 2002 peak demands and gave an account of the circumstances regarding the need of

authorization. O'Neill suggested two possible solutions: an immediate ACR granting interim authorization to proceed with the construction subject to ratification by the full Commission at its next Meeting on August 23, 2001, or an ACR or other assurance to PG&E that Delta Energy's construction may be constructed pursuant to a short term revocable license under GO 69-C without prior authorization from the Commission. Makler urged support for prompt issuance of an ACR permitting construction to resume and ratification of such Ruling by the full Commission at Meeting on August 23, 2001.

Summary: LATE FILED. On August 2, 2001, Steven F. Greenwald, counsel of Delta Energy Center, LLC ("Delta Energy"), met with Tom Long, advisor to President Lynch in two separate meetings in San Francisco. Also present was Edward W. O'Neill, attorney for Delta Energy. Referring to Delta Energy's Emergency Motion for issuance of an Assigned Cmmr's Ruling ("ACR") granting interim authorization, Greenwald stated that expedited Commission authorization for use of PG&E property for a transition structure associated with the transmission line connecting the Delta Energy Center to the grid is required for plant construction to remain on schedule for commercial operation to meet Summer 2002 peak demands. O'Neill gave an account of the circumstances regarding the need of authorization. O'Neill suggested two possible

solutions: an immediate ACR granting interim authorization to proceed with the use of the PG&E land for construction of the transition structure, or adequate assurance to PG&E that Delta Energy's construction of the transition structure may be constructed pursuant to a short term revocable license under GO 69-C without prior authorization from the Commission.
